On the Video, the Dobro Tablature is displayed at the bottom of the screen to help you follow along. The Tablature in PDF format is NOT included with this package. The PDF tablature and play-along audio files are separate items in the book, **Bluegrass Dobro Volume 1**. You may not need the tablature since each note and chord is explained step-by-step, however it is visible for those that would like the visual 'aid' of Tablature.

These files are to be downloaded to the hard drive of your computer. Nothing is sent in the postal mail (snail mail). The total size of all 7 Units is approximately 13 gigs and is packaged in smaller files of approximately 150 meg each. You will need a fast Internet connection to access these. They can be ordered individually or as a packaged group at a discount. See [www.jaybuckey.com/dobro.htm](http://www.jaybuckey.com/dobro.htm) for the details.

The files are packaged and compressed in the winrar format. You will need to install winrar (trial version is available at <http://www.download.com/3000-2250-10007677.html>) The software, 7zip is also very good and will also open these files. 7zip is 'open source' and *totally free*. The link for this download is: [http://www.download.com/7-Zip/3000-2250\\_4-10634921.html?tag=lst-0-1](http://www.download.com/7-Zip/3000-2250_4-10634921.html?tag=lst-0-1)

If you are using a MAC, you will need the MAC version of this utility. See this page for the download: <http://www.7-zip.org/download.html>

After you download the files, extract them to a folder of your choice. To play them you will need to install the DivX codec. It is also free and can be downloaded at [www.divx.com](http://www.divx.com)

These video files can then be played back on your computer OR, you may wish to burn them to CDR or DVDR to play back on your set-top TV. You will need a CD/DVD burner installed in your computer, of course.

Newer DVD players will play these files like a standard DVD. 'DivX' will be stamped on the front of your machine if it is capable of playback. If you don't have a DVD player that will play DivX, they are available for as little as \$50 (or less) at most popular department stores.

If you do not have access to a 'Dobro' Teacher, this Video program will be very helpful to you. The material is not rushed but presented as though you were actually taking a lesson. To get the most from this lesson program, you are encouraged to use the Book and play-along audio recordings that match this material.
